About the Bordeaux metropole learning expedition

Bordeaux Metropole is organizing a learning expedition in Barcelona during the Smart City Expo World Congress in Barcelona with 33 participants, including elected officials, administrators and advisors (see full list below). The goal of this 36-hour trip is to:

- *Take the pulse* of the sector, identify emerging solutions and proven uses as well as witnessing the application of innovative solutions on the ground
- Meet leading international experts on data, smart city and digital divide. Create and formalize new partnerships to build together projects that may be supported by European funding
- Build or strengthen partnerships
- Benchmark and discover digital solutions which could be applied on our territory

The cities of Bordeaux métropole attending the learning expedition
